PROJECT CHARTER	
Project Name	SoundTrade – Music Skill Exchange Platform
Date Produced	January 30,2026
Project Goals	The purpose of this project is to design and develop a web-based platform that allows users to exchange music skills. The system will enable users to list skills they can teach and skills they want to learn, match with others, and communicate through messaging.
Project Objectives	1. Develop a working web platform for music skill exchange 2. Implement core features (login, skill posting, matching, messaging) 3. Create a clean and user-friendly interface 4. Deliver the project within the academic timeline
Project Budget	This project does not have a financial budget since it is being completed as part of a course. We are using free tools and technologies like HTML, CSS, JavaScript, and GitHub to build and manage the platform.
Project Sponsor	Timothy Maciag - Project Sponsor
Project Manager	Timothy Maciag - Project Manager
Fortune Toni-Ojiako – Team Member (Development)	
Fairuz Nawar – Team Member (Development)	
Aldan Henry – Team Member (Development)	
Overall Project Milestones	**Dates**
Finalize project idea	January 2026
Set up and organize GitHub repository	January 2026

Complete Project Charter, Business Case, and Pitch	January 30, 2026

Overall Project Risks
Possible risks include limited development time, technical integration issues between frontend and backend, difficulty implementing the matching and messaging features, and scope expansion beyond the core project requirements. Team coordination and debugging delays may also affect progress.
